

MOBILE DVR - VVK-D10

Key Features

- H.264 4CH 2CIF @ 120ips
- Memory: 6 SD Card Slots or 2.5" HDD
- Multi tasking-recording, playback, networking

Copying Simultaneously

- Multi-channel recording & playback
- Data Backup - Exteranal Data Storage Connectivity
- Buil-in SMPS for camera power support

Input: 9V~36V / Output: 12V 1.5A

- Can be installed in extreme enviroment(Operation Temp: -20°C ~60°C)
- In-car Black Box (GPS / G - Sensor)
- Viewer with google map
- Anti-shock & vibration proof design
- Automative grave components & structure
- SD card storage - most durable storage form exiting
- Safe recording file (built-in super cab)
- Various control interface - key buttons / IR remote controller / mouse etc.
- Easy Network Access - Client s/w / Internet explorer
